

Amabilia

ABBAS GARDEN ROAD, MOHAKHALI

ARCHITECT'S NOTE

When designing Amabilia my intention was to create a unique space that denotes tranquility and serenity amidst the ongoing urban vibrance. Based on contextual and site analysis, I focused extensively on the confluence of light and breeze. In addition, soothing textures and colors were used to further enhance that emotional connection to natural elements among residents.

Amabilia is blessed with open sides in three directions, inviting ample breeze and sunshine in all seasons. A central void between each apartment unit and vertical louvers in the west accentuates that function and also reduces excessive build up of humidity and heat. Shades of greenery throughout the building create blissful spaces for everyone. All in all, Amabilia is a beautiful portrait of utmost comfort merged with maximum functionality.
